

Data Center Landscaping

**Leave your curb appeal to us.
We'll take good care of it.**

**Environmental
Enhancements**
COMPLETE LANDSCAPE SERVICES

A Note from Fred:

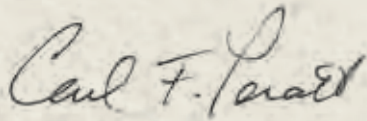

Data center facility management is a hi-tech job, and we're a hi-tech landscaping company. We know that security, trustworthiness, and professionalism matter to you.

They matter to us, too.

We are a different kind of landscape provider. We take pride in our work, and when you partner with us, you'll take pride in your properties.

I'd be happy to stop by and see what we can do for you.

Sincerely,

A handwritten signature in dark ink, reading "Fred Peratt". The signature is written in a cursive, flowing style.

Fred Peratt, President

What we can do for you:

- Landscape Maintenance
- Landscape Enhancements
- Snow & Ice Management
- Sustainable Landscape Programs
- Irrigation
- Drainage Solutions

"Environmental Enhancements' commitment to pristine grounds is second to none. It's very obvious they take pride in their work, and it shows. I would highly recommend Environmental Enhancements to anyone seeking a lawn management provider."

***- Keith Rigsby Regional Site Services Manager,
QTS Data Centers***

As a data center facilities manager in the nation's most competitive location for data centers, you need to stand out. We'll help you create a powerful first impression as soon as someone arrives at your site.

Making You Look Good

We design and maintain landscapes that will impress your boss, your employees, and your clients.

Monitoring Your Properties

In a building where staff is often remote, our job is to keep a close eye on your property.

Making Your Neighbors Happy

Your community will love how you look.

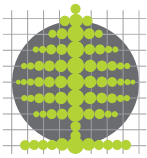

Grading Our Work for You

Our regular self-audits get sent directly to you.

Keeping You in the Know

Our hi-tech communications and reporting system keeps you informed and up-to date on all projects.
